Comfortable
cooperation conditions

"ARTHA-S" COMPANY produces branded packaging from polymer film, which preserves goods in their original form and presents them favorably on the market

Our advantages are:

We produce certified, safe, and environmentally friendly products, for which we take full responsibility.

The basic raw materials for production are supplied directly from the leading manufacturers in Europe; our stock with raw materials covers the monthly needs of our customers.

The quality control system is implemented at every stage of the production process.

Our team of experts has extensive experience in the implementation of projects for Ukrainian and European manufacturers.

Dear friends

Since my secondary school age, I have started participating in company life. My father used to take me to the production, where he devoted himself entirely to the work process. Together, we celebrated achievements and solved problems. I saw how the company was founded. So, the reputation of our company is equal to the reputation of my family.

We help entrepreneurs to implement their ideas for packaging and product design. Every day we work and ensure that our products are of high quality and meet clients' expectations.

The ARTHA-S company is based on family values. Our aim is constant development, and we are always open to cooperation. Our main principles are a straightforward approach to doing business, to ensure strict compliance with our duties to customers, partners, employees, and the continuous improvement of all business processes.

Let's develop together!

Yours faithfully,

VOLODYMYR STAKHNYAK,

Owner and Managing Director of ARTHA-S

100 words about the company «Artha-s»

in Indian philosophy, ARTHA (Sanskrit: «object», «purpose», «meaning», «benefit») is one of the four goals of human existence, the achievement of material well-being, profit, as well as erudition and success in life.

OUR MAIN AREAS OF BUSINESS ARE:

- packaging for flowers and gifts;
- packaging for food and non-food products.

BASIC SERVICES ARE:

- Flexographic printing (method of printing with quick-drying inks, on flexible materials);
- Perforation (creation of «breathable» packing, holes of 1 mm diameter);
- Europerforation (creation of «breathable» packing, holes of 3-4 mm diameter);
- Half-sleeve film (bending of the cloth);
- Production of packages of a different configuration (with euro hang tab, valve bags, with sticky tapes, with additional seam etc.);
- Production of conical packages;
- Development of an individual layout for branding, designer services.

Artha-s: family values and reputation

The history of our company began in 1999 with the production of film for flower bouquets. In time, we have expanded the range of our products with packaging for food and non-food products.

The production was established by **ROMAN IVANOVYCH STAKHNYAK** and **GALYNA ADAMOVNA STAKHNYAK**. Today, their sons are keeping on the business of the family. The core team has been working with us for more than 10 years. The workers develop together with the company. We have 80-90% of our long-term clients, which we are particularly proud of.

The Head Office of the Company, production shop, wholesale and retail warehouses are located in Dnipro city, Ukraine. We also have two representative offices in regional centers of Ukraine (Zaporizhzhia, Mykolaiv). The company has approximately 100 employees, 30 of them work in the office, shop and our regional branches.

What does high quality mean?

At «ARTHA-S» we support openness and speak freely about our approach to production:

We work with suppliers of raw materials and paints, which 100% adhere to the standards we have introduced, and each time they confirm the quality of their materials with the necessary documents.

We control the sanitary conditions of our production. We have a special verification procedure of employees who work with finished products.

All production parameters are documented, we control their actual compliance.

The owner of the company systematically exercises internal control over all stages of production.

We are open to cooperation!

THE ARTHA-S COMPANY is open to cooperation with manufacturers, distributors, flower shops, etc.

**WE KNOW HOW TO WORK WITH PARTNERS IN DIFFERENT AREAS
AND WE ALWAYS CREATE A COMFORTABLE ATMOSPHERE
OF JOINT WORK:**

-  Normally, we start our cooperation with a test delivery lot
-  We discuss forms of payment and shipment which would be convenient for our customer
-  We coordinate schemes of supply and delivery
-  We have negotiable prices: depending on the volume of raw material purchases.
